

## CLOSED EXPANSION TANK - UNPRESSURISED

### FEATURES

- Mild steel shell
- Interchangeable EPDM/Butyl membrane
- Built-in coalescence air separator
- Auto air-vent with air ingress preventer

### BENEFITS

- Prevents interface between air and water
- Removes dissolved air and microbubbles
- Reduces corrosion in piping and sludge formation

### TECHNICAL DATA

#### Material

Shell	:	MS
Membrane	:	EPDM/Butyl
Max. operating pressure	:	6 Bar
Working temperature	:	(-)10°C-70°C

## INSTALLATION AND COMMISSIONING

Please refer to "Installation & Commissioning Manual for Pump Based Pressurisation System".
